

THE GAZETTE.

FRIDAY, JULY 2.

The Milwaukee Journal says, "Senator Sawyer's fences are in good repair. The senator is one of those rare men whose attention to public business is so uniformly good that his fences never get down."

The report that Herr Singer, the Social Democrat and member of the Reichstag, had been ordered by the government to quit Berlin, is confirmed. He has been commanded to depart from the city by noon on next Saturday.

An inter-state law-and-order league, to fight strikes and boycotts, and to re-enforce the peace authorities in neighboring cities in case of outbreaks, has been started at St. Louis and other places in the northwest. It already numbers 17,000 members.

A Philadelphia physician, Dr. Horace Willms, believes long walks will cure dyspepsia. The hot water cure is still popular, and it has long been held that exercise is needed to promote good digestion. There may be more truth than folly in the long walk theory.

The practice of drinking lemon juice and water before breakfast as prophylactic against biliousness is rapidly growing in popularity, and many physicians think that the benefit derived from it is more than doubled by taking a similar dose at night also.

In a speech at Toledo Wednesday evening, ex-President Hayes condemned President Cleveland for his vetoes of pension bills. The president's action, he said, was contrary to every tradition of the country, and one which would meet with no approval from the patriotic and the just.

The population of Chicago, as indicated by the new directory, which is just out, is over 750,000. The development of the business and building features of the city in the year is reported to have exceeded any other like period. An increase of 50,000 in the population is shown over last year.

The Massachusetts legislature yesterday passed a bill appropriating \$30,000 for entertaining President Cleveland on his visit to the state this summer. The governor signed the bill. This is double the amount which was appropriated in 1875 to entertain General Grant at the Bunker Hill centennial.

The Pennsylvania republican convention Wednesday passed a resolution in favor of submitting the question of prohibition to a popular vote, and the Iowa Democratic state convention Thursday adopted a resolution in its platform in favor of repealing the prohibitory law of that state and adopting local option in its place, with a high license fee of \$500 where license may be voted.

This week's exports of gold amounted to \$2,331,000, which may be increased by future engagements. The outflow is increasing instead of diminishing, as had been predicted. The lower price of stocks is attributed to the large gold shipments. The large shipments of gold now being made are for the use of German bankers in replacing large Russian loans.

On the occasion of the transfer of the remains of the late President Garfield from the Seaside vault to the public vault in Lake View cemetery, at Cleveland, Wednesday, the casket was uncovered, and the features of the deceased were found unchanged. The government guard having been removed, a priest-gardener has been placed at the vault by order of the cemetery association.

Where Judge Dwyer is a calendar with each day in the year, and the day of his death, the pen of his old friend, and read as follows: "Only one being who but a prudent man, seize occasions, can find to find as much."

A mungwump newspaper, Record, makes the following suggestion: "If the president sign a bill giving to Mrs. General Hancock a pension of \$2,000 a year, it looks like pretty small potatoes to refuse Mrs. General Hunter, whose husband was brave and gallant a soldier as was Hancock, and who is in distressed circumstances, the meagre sum of \$50 a month which congress had voted to her."

President Chauncey M. Depew, of the New York Central and Hudson River railroad, is credited with the resolution to undertake a reformation among his brakemen regarding calling the names of stations. He made a study of the subject, recently, and found that "Hudson" was called out "Cunneen," "Schaghticoke," "S-a shoke," and "Poughkeepsie, tea minutes for refreshments." "Phebeys" is a name for refreshments. Mr. Depew is going to see to it that brakemen are named of stations distinctly. Those who don't do it will be taught how, and those who won't, will be discharged.

The duration of life of various animals, birds, fish, etc., is thus stated: Elephant, 100 years and upward; rhinoceros, 20; camel, 100; lion 25 to 30; tiger, leopard, jaguar, and hyena (in confinement) about 25; beaver, 50; deer 20; wolf, 20; fox, 11 to 16; hamster, 15; chimpanzee, 25; monkey and baboon, 16 to 18; hare, 8; squirrel, 7; rabbit, 7; swine 25; stag, under 50; horse, 30; ass, 20; sheep, under 10; cow, 20; ox, 20; swan, parrot and raven, 200; eagle, 100; goose, 30; hen and pigeon, 10 to 15; hawk, 30 to 40; crane, 24; blackbird, 10 to 12; peacock, 20; pelican, 40 to 50; turtle 8 to 10; wren, 2 to 3; nightingale, 15; bluebird, 15; linnat, 14

FOREIGN POLITICS.

THE STRUGGLE FOR POLITICAL POWER IN THE BRITISH PARLIAMENT.

Special to the Gazette.

LONDON, July 2.—To-day the opening guns in the great battle between the adherents of Gladstone, the followers of Salisbury, the moderate element, which styles itself the "Unionist party" are being fired. The arena of the struggle for justice to Ireland has been transferred from Westminster to the country at large, the last life's work of the grand old man is before the people and the voters of the large towns of Bristol—in the west—Liverpool, Leeds, and Manchester in the North; Aberdeen in Scotland, and some thirty-five other election districts are exercising the right of freemen at the polls. Never since the time when Fox and Burke quarreled over the French Revolution has the liberal party gone to the polls with such disruption in its ranks as exists to-day, but the followers of the statesman of the house of Middlesex are confident that victory will perch upon their banners, and that the results of to-day's voting will show such a preponderance of feeling in support of the government as will materially affect the borough and county election of the next two weeks. The interest in the contests of to-day is unparalleled and to-night throughout the country millions of people will be watching the bulletin boards of the newspaper offices for the results of the contests.

THE CHINESE INFLUX.
Prof. E. W. Gilliam, who has made a comprehensive study of the "Chinese Question," contributes an article to the July number of the North American Review, in which he gives a summary of the results that will be apt to attract a good deal of attention. Chinese immigration has become an American problem, and is regarded by many as one of the numerous dangers which threaten our civilization. "During the period of medieval Europe," says Prof. Gilliam, "China was the most civilized country on earth." She developed an intense national pride and was utterly exclusive. But when, during the present century, she found herself almost encircled by the possessions of Russia, England and France, she awoke, to the need of knowing something about these powerful European nations, and suddenly threw open to the world five of her most important ports. From this colossal empire the money-loving Chinese are now streaming over the world, and are forming colonies, after their fashion, in all the trade centres of obtemperance. Singapore is the distributing point as late as 1871 that city contained only a few Chinese, the population being chiefly Malays. But already Singapore has nearly a hundred thousand Chinese, and is a second Canton. In twenty-six years 200,000 have entered Chili and Peru. There are 130,000 in Cuba. They are pressing into the Sandwich Islands. 50,000 have gone to Australia, and we have 30,000 in San Francisco. In China a man receives for a day's work from ten to fifteen cents. In California he receives from three to five dollars. And competition has reduced the wage across the Pacific as low as \$12. Hence the Chinese come here to gain a competence in a few years and return home with it. Prof. Gilliam very naturally concludes that the possible influx from a population of 300,000,000—a third of the world's inhabitants—is something appalling. Already, he says, the Chinese of California have taken \$300,000,000 of American wealth out of the country. Intrinsically, it is the cause of Irish landlordism, since the pith of the matter is the exportation of profits, and it is immaterial whether the drain be through lord or laborer. Chinamen are usurping more and more of our Pacific coast trade. It is done in this way: "An American manufacturer employs Chinese workmen at low rates. (Other manufacturers are compelled to do the same. Presently rich Chinamen appear, who buy out the manufacturers, and the entire business becomes 'Chinese.' The effect is to derange distribution, to give capital a larger share of wealth and widen the gap between poor and rich—an evil among us threatening aspects. Prof. Gilliam finds that the Chinese, as a whole, are a good people. But the mainstream upon California has been vile. The picture that he paints of "Chinatown"—its filth, its gambling, its prostitution and general vice—is horrible. It is also true. Prof. Gilliam's conclusion is that America must be held for Americans—the people at least who are now here. He seems to have more fear of "alienation" than the results of it warrant. Still it is doubtless best, as he maintains, that the three great families into which mankind is divided—black, yellow, white—should develop "within themselves."

THE RACINE BOMB.

TRIAL OF ALDERMAN PALIO, CHARGED WITH IMPLICATION IN THROWING THE BOMB.

Special to the Gazette.

RACINE, Wis., July 2.—Justice Hyer's court was crowded to overflowing this afternoon when the hearing in the case of F. J. Palio, charged with being party to the attempt upon the life of ex-Mayor Secor, was commenced. It will be recollected that one evening about two weeks ago a dynamite bomb exploded in the driveway of the ex-mayor's residence, a few moments after he had entered. Pieces of the shell, which was six and one half inches in diameter, were found some distance from the scene of the explosion, and blood stains on the ground led to the pursuit and capture of a distinguished looking, handsomely dressed young man, who gave the name of John Jambor, of Milwaukee. He was terribly wounded, and claimed that he was passing by the ex-mayor's residence when the bomb exploded, and thus received his injuries. Detectives employed upon the case, however, soon arrived at the conclusion that he had placed the bomb in the driveway with murderous intent, but finding that it failed to explode, was attempting to remove it when the explosion occurred. This conclusion reached, the next thing was to find a motive. It was discovered that Jambor since his arrival here had been in company with F. J. Palio, an extensive trunk merchant, and prominent Bohemian, who was president of the city council for two years, and alderman from the fourth ward for four years. Palio was formerly confidential bookkeeper for Mr. Secor, and the latter has recently been having made a complete examination of his books for the period of Palio's employment. It is not admitted that a shortage exists; but Secor says that for several weeks prior to the explosion, Palio had threatened to kill him, and that he went in fear of his life, as a consequence. Upon these facts Palio was arrested, and held in bail for to-day's hearing. Jambor is still lying at the sheriff's residence in a precarious condition. In view of his prominence in city politics, Palio's arrest has created great excitement, and the community is about divided regarding his guilt or innocence.

MASSACRE OF MISSIONARIES.

THE WORK OF MURDERING TRIBES OF EAST AFRICA.

Special to the Gazette.

LONDON, July 2.—Advises continue to be received by the African Missionary Society concerning the massacre of missionaries in foreign parts. Letters just to hand from Gohntse Laniar, East Africa, report the murder of Mr. and Mrs. Houghton, of Lockport, Lancashire, both well known earnest missionaries, by marauding tribes, called Masai. Mr. Houghton was speared to death while running to the mission house to assist his wife, whose screams he heard. At Annam two hundred Christians have been massacred during the last month, and five hundred christian refugees have arrived at Saigon.

CONSIDERING DRAINAGE.

Special to the Gazette.

QUINCY, Minn., July 2.—A mass convention is in session here to-day for the purpose of considering the question of a general system of drainage for this entire section of country between St. Vincent and Breckenridge. Among the topics to be considered this afternoon are the necessity for systematic drainage of the Red River Valley, its practicability and the best method of obtaining it, the probable expense and how to raise the money; also what aid can be expected from the state and from the railroad companies.

CONSERVATIVE LEAGUE.

Special to the Gazette.

SPRINGFIELD, Ill., July 2.—A charter has been granted by the state department to an organization which has adopted the corporate title of "The Conservative League of America." The incorporators are all prominent Chicagoans and include J. W. M. Jones, of the well known printing house; J. Irving Pearce, proprietor of the Sherman house; Morris Seya, a prominent merchant and many others. The object of the league is to protect business from disorders and from all unlawful interference; to promote a better understanding of the true relation between employer and employee; maintain the rights of each and adopting their differences. Tens of thousands of copies of an address issued by the league, inviting all persons who believe in the supremacy of the law to identify themselves with it are being sent through the state and are eliciting numerous responses. Trades Union leaders now, even look askance at the organization and claim that it is only an anti-labor vigilance committee under another name.

FOR LAW AND ORDER.

DISCLOSURES REGARDING A NEW SECRET ORGANIZATION.

A Sort of National Minute Men Society, whose purpose is to put down turbulence, Discontinuance Strikes and Condemn the Boycott—Composition of its Membership.

St. Louis, Mo., July 2.—Several very important meetings of the leaders of the Law and Order league have been held recently both here and at Sedalia, Mo. A prominent officer of the league says that these meetings have been much more general in character than those previously held, the intention being to establish an organization from east end of the country to the other in support of law and order, which can be largely raised, if necessary, at one point. For instance, in case of trouble in St. Louis which the league here could not cope the preparations now being made are for the purpose of enabling the local officials to call on Chicago, or any other place for reinforcements, the members being bound to answer such a call at a moment's notice. The organization, in this respect, is partaking more of the character of national minute-men, though the members say they hope they will never be called on to perform that kind of duty. As a means of getting the forces out on a few moments' notice the addresses of all members, business and residence, are taken. The league, which had its origin in Sedalia, has been rapidly fanned by some of the leading secret-society men in the country. Legion of Honor members and masonic members, and the workings and management of these societies have been consolidated and the best points called out, in order to secure a large and effective membership as soon as possible, and at the same time to prevent labor disturbances, discontinuance strikes, and boycotts. The latter comes in for particular condemnation, a committee of the league being appointed to investigate all boycotts, and where the employer is found to have been unjust to let them alone, but where the employer has given no cause for such extreme measures then to go to his assistance.

LAKE BLUFF.

Special to the Gazette.

CHICAGO, July 2.—The morning train of the Wisconsin division of the Chicago & Northwestern railroad were well filled with people from various parts of the country who have come hither to participate in the annual temperance convention at Lake Bluff, which opens to-day, and continues for two weeks. Among the prominent speakers who are expected are: United States Senator A. L. Cullitt, of Oregon; Hon. William T. Proctor, of Wisconsin; Rev. O. P. Gifford, of Boston; and Rev. A. P. Leonard, of Ohio.

The annual convention of the Women's Christian Temperance Union Training School will also be held concurrent with that of the temperance convention proper.

Special to the Gazette.

INDIANAPOLIS, July 2.—A week from to-day, unless the fates should otherwise decree, Sam Archer, the noted Indiana outlaw, will pay the penalty of his many crimes upon the scaffold at Shoals. Although the supreme court has upheld the trial and verdict which sentenced him to death, and the governor has positively declined to interfere, the condemned man is not discouraged, and still expresses the belief that something will happen to save him from the gallows. His spirits are good and he sleeps well and spends his days in reading, smoking and chatting with the guards.

COLLEGE BOAT RACE.

Yale, Harvard, and Columbia Contest, and Harvard Wins.

NEW LONDON, Conn., July 2.—The race between the freshmen crews of Harvard, Yale, and Columbia colleges took place Thursday morning, and was won by the Harvard crew, who finished in 20 minutes, 32 seconds; Columbia making the two miles in 11 minutes 36 seconds. Yale's boat upset, having lost out of the contest. Columbia led at the end of the first mile, but Harvard overcame the lead by a fine spurt and Columbia had a stern chase from there to the finish. The cause of Yale's disaster was that the paper deck of her shell broke and let in the water. After the race the Yale launch steamed down to the reference boat, entered a protest and requested that the race be re-raced over.

A Town Swept Away.

INDIANWELL, Cal., July 2.—Nearly the entire city was destroyed by fire Wednesday. Loss, \$300,000; insurance, \$40,000. The fire caught in a blacksmith shop at the north end of the town. The wind which was blowing, quickly communicated the flames to adjoining buildings, and before anything could be done to arrest them the court house was ablaze. The flames then crossed the street, and in less than ten minutes it was evident that the entire town was doomed. The flames swept down both sides of the principal street, spreading both east and west. Not a business house escaped.

A Thief Held in Bail.

Boston, July 2.—Richard J. Lane, the embourgeois banker of Abington, was examined before a commissioner Thursday and held in \$4,000 to appear before the United States court July 12. Bail was furnished by his brothers. The Abington National bank has suspended payment. All the other banks doing business with it deny that they are in any way affected by the troubles of that bank.

An Explorer's Close Call in Africa.

Harare, July 2.—Advises received here Thursday state that Dr. Junker, the African explorer, was recently the guest of the king of Uroyoro, when the latter was attacked by the king of Uganda and defeated. The king of Uroyoro and his court were rescued with their lives, but Junker's valuable collection of specimens, etc., was left behind.

Briefs.

—The Salvation Army picnic on the river to-day.

—To-morrow—last day of the "mark down" sale at the New York Savings Store.

—Where are the Sunday School picnic? The time is at hand but so far none have come to the foot.

—Rock River Encampment No. 3, A. O. U. M. W., assemble in regular semi-monthly meeting this evening at Odd Fellows' hall.

—People's Lodge No. 400, Independent Order of Good Templars, meet in regular weekly session this evening—Court Street M. E. church block.

—The tramp who was shot at by a lady in the first ward yesterday afternoon was afterwards arrested and put on a train for Whitewater. He claimed that his home was at Milwaukee.

—Oliver Branch Lodge No. 36, Ancient Order of United Workmen, assemble in regular semi-monthly session this evening—lodge room in the Lappin block, East Milwaukee street.

—Married—At the residence of the officiating clergyman, in this city June 30 1895, by the Rev. T. Walker, Elmer D. Withers, of La Prairie, Wis., to Miss Rachel Austin, of Janesville, Wis.

—The Young Ladies' Missionary society of the Baptist church will hold a meeting and picnic supper Friday, July 2nd, at 4 p. m. All young ladies of the church and society are cordially invited.

—The impromptu party given last evening at the Guard's armory was quite a success. About thirty couples were present and dancing to the music of the Arion orchestra was kept up until past midnight.

—Mr. and Mrs. Charles Hodson are entertaining a number of their friends at a picnic on the river this afternoon. The steamer Enterprise started with the party soon after six o'clock and a moonlight ride is to be enjoyed before the return.

—An excursion train will leave Janesville at 10 o'clock a. m. to-morrow, for Albany, Green county, returning at 9 o'clock p. m., giving our people an opportunity to attend the celebration of the Fourth of July at Albany and returning home in good season.

—The Janesville ball nine is doing considerable practicing for the game next Monday. The boys are promising their friends something remarkable in the way of ball playing and claim that they now have a battery which cannot be equaled in this part of the country.

—The building of a street railway, the probability of the introduction of water works and the possibility of a short cut to the crowded and dusty metropolis of Evansville—all these things are making a very noticeable boom for Janesville. But these are not enough. The secret of progress in any city is that no one shall hold back. With every man and most of the women, lifting at the wheel progress is assured and booms grow rapidly.

—Yesterday morning at one o'clock, fire broke out in the basement of Cox's grocery store, on Main street, Whitewater. The building and contents were entirely consumed. Pat. Connors' store, adjoining, was also burned, but most of the contents were saved. Cox's loss on goods is over \$1,000; insurance, \$3,500 in the Milwaukee Mechanics and Assured companies. Connors' loss on both buildings is \$2,500; insurance \$1,800. The fire is supposed to be the work of an incendiary.

—It must be that some other country is in the very position that now occupies us regarding the coming election. In one of our exchanges we find the following: "There was some one shot at Watermelon square last evening, but an effort is being made to keep the matter quiet, and I cannot learn the name of the injured party," said a reporter to the city editor. "Man or woman?" questioned the city editor. "Man." "Just say that a well known candidate for sheriff was shot. Can't miss it. There isn't a man in the county but is after that office."

—The steamer Enterprise started up the river last night about eight o'clock, bearing a party of young people to Pope Springs for an informal dancing party. The excursion met with an obstacle, however, in the shape of one of the piles near the railroad bridge, and it was nearly ten o'clock before the boat could be started on its course once more. It was then almost too late for a ride up the river, so the party adjourned to Apollo hall, and then dancing to the music of Anderson's orchestra made the remainder of the evening pass very pleasantly.

G. A. K. Picnic.

Do not forget the basket picnic to be held at Pope Springs July 5th, under the auspices of W. B. Sargent's Women's Relief Corps. The boat will leave for first trip at 10 a. m., and every two hours thereafter during the day. Ice cream and lemonade will be served on the ground. Good music will be in attendance.

"Last Call"—To-morrow finishes up the mark down sale at the New York Savings Store, after which all goods will be sold at regular prices.

The Weather.

At seven o'clock this morning the thermometer indicated 61 degrees above zero. Clear with east wind. At one o'clock p. m. the register was 95 degrees above zero. Clear with southeast wind. For the corresponding hours one year ago the register was 63 and 80 degrees above zero.

Circuit Court.

Another Divorce of Elvira Cramer—Extra Goodrich Applied for a New Trial.

Balmy spring is the time in which lovers are supposed to make their vows. Later in the season a change appears to come over their dreams, at least the calendar of the circuit court makes it look that way.

As suggested in one of our comic operas, matrimonial devotion meets with doubtful approval in too many cases, and before long the courts are applied to for relief.

As soon as the hearing of Assignee Burdick's report in the Merrill & House, Iron works assignment matter was concluded this morning, Adeline Pentecost appeared before the court seeking for a legal separation from her husband Philip Postcock, who had deserted her.

After hearing her story judgment was ordered, the defendant, being in default.

The arguments in the case of Sarah R. Wheeler against G. W. Wheeler, of this city, were taken up this morning, and a judgment was then rendered for the plaintiff, [she is to have the custody of the children and an allowance for their support.

The next applicant was of the sterner sex. He was Eugene L. Williams, and his reasons for desiring a separation from his wife was that she had deserted him. The decree of divorce was granted.

Mrs. Mary Alice Sprague was another who wanted a divorce, and after a short consideration of the case the decree was granted.

A motion for a new trial was made in the case of the Chicago, Milwaukee & St. Paul railway against Ezra Goodrich, but the motion was overruled. An objection was thereupon entered by the defendant.

The only case, besides the divorce suits, that came up for trial, was that of Thomas Austin against N. D. Clark. In 1888 Mr. Austin sold to the defendant a quantity of barley, receiving in payment checks for over two thousand dollars. These checks, when presented at the bank, were not honored, and the plaintiff began suit to recover their face value from the defendant. This morning Judge Bennett rendered a decision in favor of the plaintiff for two thousand five hundred and fifty-five dollars and twenty-four cents.

The Patriarchal Circle.

Milwaukee Patriarchal Circle to Enter the Prize Fight at Grand Rapids.

The annual session of the Patriarchal Circle takes place at Grand Rapids, Michigan, July 13, 14 and 15. Extensive preparations are being made in that city to receive the visiting brethren at what promises to be a very important session of the supreme temple. The Chicago & Northwestern railway has reduced rates to \$5 for the round trip via Chicago, and the rate via Grand Haven, by boat, will be \$2.50, thus affording a reasonable rate for any one wishing to visit across the lake or go on business. The usual prize drill will take place, and Milwaukee Temple, as usual, will go in for No. 1, the prize money, if won, to be spent to purchase emblems of the order for participating Patriarchs. Milwaukee Temple has drilled a good deal, and the members expect to get first prize this time. They secured the third prize at St. Paul, last year. Reports from the different temples throughout the country indicate that between 6,000 and 7,000 Patriarchs will meet at Grand Rapids.—Milwaukee Wisconsin.

The Grand Concert.

These summer evenings suggest the subject of grand concerts and as a commencement the Dover City Band intend to give one purely for the public good as the members do not expect any pay for their services. It will be in the court house park commencing at eight o'clock. There is no doubt that should the merchants in that neighborhood subscribe enough money to pay for a series of these concerts they would be amply repaid—besides being filled with the consciousness of a good deed well done. The programme to be presented this evening is as follows:

PROGRAMME.

1. Quick March.....Ottello

2. Andante Waltz.....Ida May

3. Polka.....Village Song

4. Lancers.....Jola

5. Overture.....Dancer's Dream

6. Quick March.....Metropolis

7. Subliminal.....Dancing in the Barn

8. Waltz.....Tones and Lullies

9. Overture.....Echo

10. Gallop.....

After the Diamond Badge.

At the Rockford Gun Club shoot in Rockford, June 24th, one of the prizes was a valuable diamond badge. This was won by E. C. Caboon, of Freeport.

Mr. Caboon has now received the following challenge from P. P. Stannard, of this city:

JANESVILLE, Wis., June 25, 1895.

To E. C. Caboon, Esq.: I hereby challenge you to a shoot for the diamond badge won by you at Rockford, June 24, 1895. To be shot on Freeport club grounds, July 27, 1895, according to the conditions it was won.

Yours truly,
P. P. STANNARD.

It is very probable that this challenge will be accepted. Several Rockford men have been talking of challenging for the badge but have failed to do so. They may now be obliged to meet Janesville's crack shot before they can win it. The Rockford Gazette says very candidly: "Mr. Stannard is a good shot. He is a member of both the Janesville and Freeport clubs."

To-morrow—last day of the "mark down" sale at the New York Savings Store.

The Fair Ground Well.

The Rockford Register publishes an article on the artesian well, which appeared in the Gazette recently, and adds the following information: "This might appear an alarming state of affairs, but Superintendent Lakin assures us that our wells and Janesville's are different characters of animals. Janesville's well is a small-fish well drilled down only to the St. Peter's sandstone, a distance of about 700 feet. Our wells go down to the Potsdam, which is really the only valuable water-bearing rock. The Janesville is not a genuine artesian well, because it does not flow. In our wells the force is so strong that no rabbit or any other animal could rest there with any comfort, it would be instantly fired bodily to the surface. The flow is so strong that sand and stone can never lodge and stay there. A stone as big as a man's fist would be thrown out by the force of the water. As an indication of the force it may be noted that when workmen plugged up the well to make the connection, a weight equal to a ton had to be put on to hold down the plug. Well No. 1 has a static pressure of 14 1/2 pounds to the square inch. In an eight inch pipe there are 50.27 square inches. This would give a force of 741.63 pounds from natural pressure. A rabbit would not be comfortable amid such circumstances."

Dangers of the Fourth.

Fourth of July is approaching. Parents be watchful. Boys be careful. Dangerous pyrotechnics are too common and very tempting to the young. The blueberries are croakers are dangerous. They are likely to add largely to painful and possibly fatal accidents to many juveniles. The numerous toy pistols have maimed and killed scores of youngsters. "Nigger-baiters," to produce startling effects, have been made more dangerous than ever. Beyond all dangerous explosives. Parents, be on your guard. Boys, there is a chance for fun and lots of it, without incurring danger to life and limb. Be warned. Danger signifies peril and often brings terrible calamity. But safety means peace, security and a good time. Boys, be wise for your own sake; in all your plays and sports, avoid even the appearance of danger and choose the sure side of safety.

A Walking Skeleton.

Mr. E. Springer, of Mechanicsville, Pa., writes: "I was afflicted with lung fever and abscess on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King's New Discovery for Consumption, which did me so much good that I bought a dollar bottle. After using three bottles, found myself once more a man, completely restored to health, with a hearty appetite, and a gain in flesh of 45 lbs." Call at F. Sherer & Co., Drug Store, and get a trial bottle of this certain cure for all Lung Diseases. Large bottles \$1.

For Bargains.

In fine lots and other property, do not fail to see my list before you buy, never has been a better time than the present to invest your money, and double it in one year. Give me a call when you want to buy or sell.
